**FR 7** Base frame

FR 7

## The Selecta FR 7 base frame

This base frame combines a high degree of reclining comfort and durability. Its effective comfort zone for shoulders provides a pleasant feeling as your shoulders sink deeply into the mattress. The double slats in the middle zone, which can be adjusted for firmness, provide the necessary support to the lumbar region. Careful craftsmanship and selected materials, such as high-quality solid beech wood, make the FR 7 exceptionally sturdy and high-performance.

## NEW

FR 7 comfort frame, 1-Matic with continuously adjustable thigh/knee area

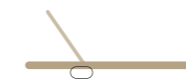

Linseed oil provides a velvety smooth wood surface. It remains breathable while at the same time forming a natural layer of protection.

Elaborately crafted solid beech wood, natural and sturdy

» Wireless or cable connection available

**The Selecta FR 7 comfort variants – convenient adjustment with cable-based hand-held transmitter or wireless remote control**

### 1-Matic back

Motorized adjustment of back section, for comfortable sitting and relaxed lying, available with cable-based hand-held transmitter or wireless remote control.

### 1-Matic thigh/knee
