V8 Visco mattress

Thanks to the use of especially high-quality visco foam, the Selecta visco mattress V8 with multi-layer core to fit the body's natural contours offers excellent point elasticity and pressure relief. The 3D air mesh provides optimal support. An aeration system with vertical holes in the visco layer integrated in the center zone, a profile cut in the mattress core, and a specially developed breathable border permit excellent sleeping comfort.

Washable cover

- All-around finish S485
- Sturdy double jersey, 25% viscose, 74% polyester, 1% elastane
 - Non-quilted
 - With integrated breathable strip
 - Cover can be separated using two zippers
 - Washable up to 60°C

Core

- Multi-layer core made of high-quality HR cold foam with soybean oil and viscoelastic foam overlay on one side with a density of 85 kg/m³
- 3-D knitted fabric, vertical holes in the visco layer and a core with transverse profiles offer optimum ventilation
- Division into 7 anatomically designed functional zones
- Core height approx. 18 cm
Height with cover approx. 19 cm
- Firmness: soft, medium, firm

Recommended firmness

Weight kg	Height cm				
	below 160	160-170	170-180	180-190	above 190
below 50	soft	soft	soft	soft	soft
50-60	medium	soft	soft	soft	soft
60-70	medium	medium	medium	soft	soft
70-80	firm	medium	medium	medium	medium
80-90	firm	firm	firm	medium	medium
above 90	firm	firm	firm	firm	firm

The use of **soy bean oil** in mattresses is not only environmentally friendly (as it is a renewable resource), but also results in excellent material quality in terms of elasticity and durability.

The **visco surface** molds perfectly and organically to the body and goes back to its original shape within seconds.
