ST6 Cold foam mattress with TorsioFlex system

Full surface cover

Border cover

A combined core made of high-quality HR cold foam with soy bean oil and integrated torsion springs is extremely point-elastic. Excellent body adjustment, shoulder depth, climate control, and easy handling thanks to a low weight.

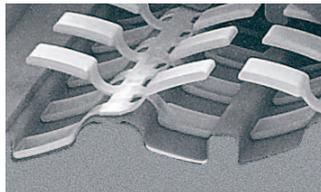

Selecta covers have a soft surface and are especially sturdy. They ensure excellent moisture balance.

Washable cover

- All-around finish S860
- Finished border S861
- Sturdy double jersey, 59% polyester, 41% viscose
- Quilted with approx. 400 g/m² of breathable fiber
- All-around zipper
- Separately removable cover
- Washable up to 60 °C

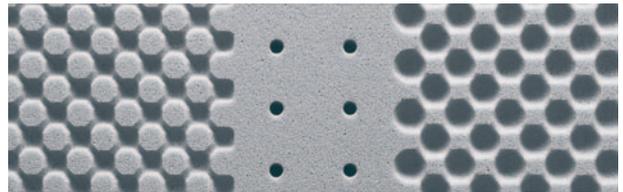

Wool ticking

- All-around finish S160
- Finished border S161
- Sturdy double jersey, 59% polyester, 41% viscose
- Quilted with approx. 500 g/m² of sheep's wool and approx. 200 g/m² of breathable fiber
- All-around zipper
- Separately removable cover
- Dry-clean safe

Core

- Combined core made of high-quality HR cold foam with soy bean oil, with integrated torsion springs and a density of 50 kg/m³
- Integrated torsion springs allow your shoulders to sink in deeply and gently
- Middle-zone reinforcement to support the body's pelvis
- Surface profiling, open-pore material structure, and integrated torsion springs ensure excellent ventilation and moisture wicking, specifically in the upper body area
- Core height approx. 16 cm
- Height with cover approx. 19 cm
- Firmness: soft, medium, firm

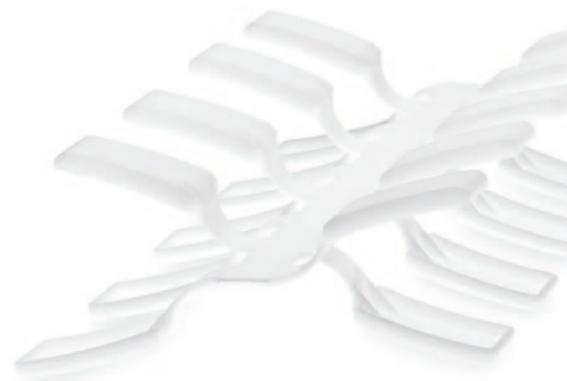

Recommended firmness

Weight kg	Height cm				
	below 160	160-170	170-180	180-190	above 190
below 50	soft	soft	soft	soft	soft
50-60	soft	soft	soft	soft	soft
60-70	medium	medium	medium	soft	soft
70-80	firm	medium	medium	medium	medium
80-90	firm	firm	firm	medium	medium
above 90	firm	firm	firm	firm	firm

The use of **soy bean oil** in mattresses is not only environmentally friendly (as it is a renewable resource), but also results in excellent material quality in terms of elasticity and durability.

Integrated torsion springs in the shoulder area allow your shoulders to sink in deeply and provide excellent ventilation: the TorsioFlex system (patent pending).
