

... because a great day starts with a great night's sleep.

Selecta Topper range

- Mattress toppers with excellent recumbent characteristics
- Good air circulation thanks to quilting with climate fibers
- Easy handling thanks to a light weight
- Low-maintenance thanks to washable covers
- Made in Germany

Topper

Selecta Comfort topper approx. 4 cm high

The washable comfort topper is quilted with climate fibers and creates a cozy sleep environment while ensuring good air circulation. It can be turned horizontally and vertically, is easy to handle thanks to its light weight and meets the strictest of hygiene demands. The comfort topper can be ideally combined with all other mattresses from the Selecta range and is simply placed onto the mattress.

Comfort topper S260

- Sturdy double jersey, 50% viscose, 50% polyester
- Quilted with approx. 400 g/m² of breathable fiber
- Ideally matched to the design and materials of Selecta mattresses
- Washable up to 60°C

Selecta Mattress topper approx. 8 cm high

Selecta mattress toppers optimize recumbent characteristics and comfort: The highly elastic HR cold foam core perfectly adapts to your body, allowing your muscles to relax. A washable jersey cover is quilted with climate fibers and creates a cozy sleep environment while ensuring good air circulation. The comfort mattress topper can be ideally combined with all other mattresses from the Selecta range. Its low weight makes it easy to use and it can simply be placed on top of the mattress.
